Auto-start.
Main camera-Secondary camera.

5" TFT colour screen.

On/Off button and volume adjustment.

On / Off communication.

Brightness, contrast and colour control.

TECHNICAL FEATURES

- ▶ **5" TFT COLOUR screen.** MAXIMUM DEFINITION. The Olympo monitor incorporates a 5-inch TFT screen. MAXIMUM RESOLUTION: 960(W) X 234(H) lines. MAXIMUM DEFINITION: 200.000 pixels. MAXIMUM BRIGHTNESS: 350cd/m2. Wide viewing angle. Perfectly clear image so you can see every detail.
- ▶ **Integrated lighting.** Elegant lighting by means of blue LED's integrated into the monitor indicates the reception of a call from the video door-entry system street panel. The intermittent lighting operates for 60" or until the communication channel is activated.
- ▶ **30 high-quality polyphonic ringtones.** 30 different tunes and 6 call tones with high-quality polyphonic sound make it possible to personalise video door-entry calls.
- ▶ **Loudspeakers with surround sound.** 2 elliptical loudspeakers at the back of the monitor give high power (1W (16 Ohm)) surround sound.
- ▶ **Full hands-free functioning.** Once the street panel-home channel has been activated, communication is simultaneous (full duplex). Quality communication with no possibility of interference. Includes a highly-sensitive microphone for perfect reception.
- ▶ **Extra-slim design.** Modern and elegant, Olympo is a unique decorative element that distinguishes the most exclusive homes.
- ▶ **Detecta4 Model.** Detection system associated with 4 areas of the home. In each area, presence, smoke or water detectors can be connected. The system is armed/disarmed via the keypad, by entering a personal code. (Soon available).
- ▶ **Memory Model.** Records up to 36 colour images of visits received in your absence. (Soon available).
